#itspossible

YEO, one of Türkiye's leading technology and engineering companies, introduced its solutions in the field of renewable energy **at the International Wind Energy Fair (Wind Energy Hamburg 2022)**, one of the biggest gatherings in the sector. YEO's technology-driven wind power plant (WPP) solutions attracted great interest at the fair.

### **Integrated solution from engineering to construction**

YEO, which offers solutions in the field of automation, electrification, and technology by focusing on **decarbonization, decentralization** and **digitalization**, works for a cleaner and sustainable world in the entire process from electricity generation, transmission, and distribution to smart and efficient use of energy. Carrying out successful projects in the field of WPP, YEO introduced its technological solutions for the sector at its booth at Wind Energy Hamburg 2022 held in Hamburg, Germany, on September 27 to 30. YEO introduced its innovative solutions in this field to visitors at the event attended by leading companies in the global wind energy sector, energy and industry ministers of various countries, and senior public officials. **Minister of Energy and Natural Resources Fatih Dönmez** and **Minister of Industry and Trade Mustafa Varank** also visited the YEO stand at the fair.

YEO operates in all areas of wind energy, from engineering and design to substation construction, control building, testing, and training.

### **Turnkey installation**

YEO offers one-stop integrated solutions for energy and digital transformation on its way to a clean and sustainable world. Positioned as an EPC contractor especially in the field of renewable energy, YEO provides **turnkey installation** services **with end-to-end solutions**. In addition to the active global business development network it has created, it produces permanent solutions for investors in the field of renewable energy with its collaborations in the financial field, including for finance, project, license, engineering, construction, procurement, and audit.

### **Realizing projects in 30 countries**

Delivering energy and industrial solutions to every corner of the world **with more than 220 projects in more than 30 countries in 3 continents**, YEO has been one of Türkiye's leading technology and engineering companies for **more than 18 years** and is one of the leaders of its sector **with more than 350 employees**.
